1.0 Foreword

- 1.1 The Rural Development Programme 2014 - 2020 commits to fostering knowledge transfer and innovation in agriculture, forestry and rural areas, and to improve the exchange of information between researchers and the agri-food sector and between European Union (EU) Member States.
- 1.2 The Department of Agriculture, Environment and Rural Affairs (DAERA) in developing the Farm Business Improvement Scheme approved a suite of sub-schemes intended to improve farmers' skills knowledge and technical advancement. The Farm Innovation Visits Scheme (FIV) is a sub-scheme within the Farm Business Improvement Scheme (FBIS).
- 1.3 Financial support for the delivery of the schemes has been provided by the Department and through the European Agricultural Fund for Rural Development (EAFRD).
- 1.4 The EU regulatory framework for supporting rural development during this period is Regulation (EU) No 1305/2013. Within this regulation FIVs is part of:
 - M01 - Knowledge transfer and information actions
 - Sub-measure 1.3 – Support for short-term farm and forest management exchange as well as farm and forest visits
- 1.5 The College of Agriculture Food and Rural Enterprise (CAFRE) has been appointed the Delivery Agent for this scheme. CAFRE is an integral part of DAERA.
- 1.6 CAFRE has a lead responsibility for delivery and ensuring the adoption of new technologies (innovation) to improve farm and food business performance in Northern Ireland. It provides a link between research outcomes and the transfer of the knowledge and technology to users within the industry.
- 1.7 The FIV will sit within CAFRE's Knowledge and Technology Transfer programme where the College investigates, develops and demonstrates new technologies which have been proven through research and development. The main objectives scheme are;
 - to increase the opportunity for farmers to visit farms in Great Britain or elsewhere within the EU in order to learn personally and practically from another farmer;
 - to encourage farmers to apply knowledge gained from these visits to improve their farming business; and
 - to prompt farmers to share the knowledge gained from these visits with their peers.

2.0 Purpose

- 2.1 This document explains the purpose of the FIV, its terms and conditions and how you can apply. The Applicant and Farm Business Owner are advised to **read the terms and conditions carefully** before signing the application as acceptance of these terms and conditions forms a legally binding contract. If you are in doubt

regarding the terms and conditions, you should discuss the matter with your legal representative.

- 2.2 The contract is between CAFRE (Delivery Agent), the Participant and the Farm Business Owner. This document states the type of assistance which is available and the conditions which must be met by the Applicant and Farm Business in order to qualify.
- 2.3 Failure to adhere to the terms and conditions set out in this document may result in the Farm Business being removed from the scheme.
- 2.4 The terms and conditions may be revised by CAFRE in the event of changes to EU/DAERA requirements. CAFRE will inform you of the proposed changes in advance and you will be offered the opportunity to accept the changes or to withdraw from the FIV.
- 2.5 Participants (successful Applicants) in the FIV will be members or employees of a farm business with a valid business identification number.

3.0 Background

- 3.1 The FIV will seek to identify innovative farming techniques and technologies currently in use at EU level and arrange for our most innovative farmers to visit and assess first-hand their suitability for use in the Northern Ireland context. In turn these innovative farmers will review the technology and disseminate their findings throughout Northern Ireland.
- 3.2 CAFRE have overall responsibility for designing the visit packages, promoting the scheme to the industry and monitoring performance.
- 3.3 It has been agreed that while the opportunity to see innovative practices outside of Northern Ireland should be available to the whole industry, selection criteria should be used to ensure those businesses and people which would benefit most should be selected to participate.
